

CALL FOR WORKSHOP AND SPECIAL SESSION PROPOSALS

IEEE 10th edition of MCSoc
The International Symposium on Embedded Multicore/Manycore SoCs

Lyon Convention Center, France, September 21-23, 2016

<http://www.mcsoc-forum.org/>

Workshop and Special Session proposals are invited for IEEE MCSoc-16 on specific aspects of Embedded Multicore/Manycore Systems Programming, Architectures, Design, Testing, evaluation and other related topics. We encourage workshop and special session that will discuss fundamental research issues driven by academic interests or more applied industrial or commercial concerns. Their organizers will determine the format of the workshop. Workshop can vary in length from half a day to a day. Special session can vary in length from a quarter day to half day. **All accepted papers will be included in the MCSoc-16 proceedings that will be published by the IEEE CSP**, so it is very important that the papers observe strict quality standards. Workshop and special session attendees are required to register for the main conference.

Important Dates and Proposal Submission

Workshop and special session proposals and any inquiries should be sent by email to the MCSoc-16 Workshop and Special Sessions Chair (see address at the bottom of this page). Proposals should be submitted in PDF format.

- **Workshop and Special Session Proposal Due:** January 15, 2016
- Notifications to special session proposers: January 22, 2016
- Special session: September 21-23, 2016

Proposal Requirements

Proposals for workshops and special session should be between 2 to 3 pages in length. They should contain the following information:

- Title and brief description of the workshop, specifying the goals and the technical issues that will be its focus.
- A brief abstract of the workshop
- A brief description of why and to whom the workshop is of interest.
- The names and contact information (web page, email address) of the workshop organizers.
- A list of committed and proposed PC members.

Responsibilities

Each workshop and special session organizers will be responsible for the following:

- Producing a website and a “Call for Papers/Participation” for the workshop.
- The call should mention that at least one author of each accepted submission must attend the workshop.
- Ensure that all special session papers are a maximum of 8 pages in length (in IEEE format).
- The camera ready due date for the accepted workshops papers will be the same as for the main conference papers. Therefore, organizers should set the acceptance notification date at least two weeks earlier than the conference camera ready due date. Workshop organizers must ensure that suitable quality measures have been taken to ensure that the accepted papers are of high quality. All papers must be reviewed by an International Program Committee, with a minimum of 3 reviews per paper.
